### COLORED GEMSTONE ENHANCEMENT DISCLOSURE

Purchasers of colored gemstones should be aware that natural gemstones are processed from the time they are extracted from the earth by one or more traditionally accepted trade practices. All colored gemstones listed on the front of this sales slip have probably been subjected to a stable and possibly undetectable enhancement process. All relevant information will be readily provided to the best of our knowledge. Prevailing market values are based on the universally practiced and accepted processes by the gem and jewelry trade.

#### WHITE GOLD ENHANCEMENT

Most white gold pieces are rhodium finished. This is not a permanent treatment.
